

# Teagan is not shy.

But that wasn't always the case. When Teagan entered the United Way-funded Birth-To-Three Program at Curative Care Network, she had speech and motor skill delays. If a child's developmental needs are not met before age five, he or she is at risk for developmental shortcomings in academic learning.

The United Way-funded program provided Teagan home-based speech and physical therapy sessions. Now Teagan has successfully transitioned to Hales Corners Elementary School and is a bubbly 4-year-old!

# Jose makes cents.

And United Way helped him do that. Jose wanted to build a brighter future for his family. Although he worked full time and owned a home, he struggled to stretch his budget each month. Jose enrolled in United Way's Financial Stability Initiative for help.

By working with Gina, a Financial Stability Coach at La Casa de Esperanza, Jose decreased his family's debt, repaired his credit, and lowered his mortgage payment. Gina also helped him create a savings plan that allowed him to go back to school.

Today, Jose's income has increased by 13%. Not only did he return to school, but he earned his associate's degree with help from the Individual Development Account Savings Match Program.
